

CUB SCOUTING

2008 NATIONAL STANDARDS FOR LOCAL COUNCIL ACCREDITATION OF CUB SCOUT/WEBELOS SCOUT DAY CAMPS FOR PRECAMP AND OPERATIONAL ACCREDITATION

This booklet includes procedures and standards, along with explanatory information. The National Standards Accreditation Score Sheet for Cub Scout/Webelos Scout Day Camps is a separate four-part form for use in reporting to the council, region, and Cub Scout Division. Attach all accreditation team recommendations and items needing follow-up to this report for council use. The local council forwards copies to the region and the Cub Scout Division.

Day camp is an organized 1-to-5-day program for Tiger Cubs (and their adult partner), Cub Scouts, and Webelos Scouts under trained leadership at an approved site, during daylight or early evening hours but not overnight. **Day camp youth participants are limited to registered Tiger Cubs (and their adult partners), Cub Scouts, and Webelos Scouts.**

PURPOSE

The standards are established to:

1. Ensure the health, safety, and well-being of every camper, leader, visitor, and staff member while on camp property.
2. Ensure that the council takes pride in the high quality of its day camp(s), including the program, staff, facilities, and equipment.

Regardless of the length or location of the day camp, the local council is responsible for assuring that the facilities meet these standards.

As a result of this analysis and rating, the council should be able to:

- Objectively review its day camp operation.
- Discuss the year-round outdoor program opportunities.
- Issue a written report for executive board action, complete with recommendations that can be used to guide corrective measures.

RESPONSIBILITY

The Scout executive is responsible for maintaining national standards, with help from the camping committee, health and safety committee, and other appropriate council committees. The accreditation team and the camp director are responsible for ensuring that all standards are or will be in effect when camp

opens. In some cases, the camp director must administer the operating part of the standards. This same principle of assigned responsibility applies to the balance of the standards.

The precamp accreditation is designed to help identify facilities and equipment that need to be brought up to standard before camp opens. Accreditation team members must have current training (within two seasons) as visitation team specialists.

PROCEDURE

Part I—A day camp accreditation visit should be done as early as possible to allow time to take action on checked items, and no less than 60 days before the day camp begins. **Use the Precamp Accreditation column on the pages 3–7.** The accreditation team consists of the council camping chair, health and safety chair, day camp director, and Scout executive or designee, plus other committee members and staff as needed. Compliance with standards is to be indicated by the council representatives. The accreditation team will review the precamp checks indicating action needed to be taken at the time of the camp accreditation.

Part II—While the day camp is in operation, the accreditation team appraises the camp by

1. Touring the camp facilities during hours of operation, using this form as a guide. During the tour (visitation), the team must take time to do a good job. Most importantly, the team must insist on immediate action to correct critical items affecting the health and safety of campers and staff.
2. Observing the use of equipment, methods of instruction, use of personnel, and any obvious indications of Scouting ideals in action. During the tour, talk with leaders and boys. Discuss the program with the program director and other staff members.

Part III—After completing the day camp visitation:

1. Meet and prepare a final analysis and rating for the camp, including recommendations and comments. Complete the score sheet and distribute copies as noted.
2. Schedule and confirm a time to provide a report to the council executive board. (The chairs of the council camping committee and health and safety committee should make the report.)
3. The Scout executive sends copies of the score sheet, as noted, to the regional office and the Cub Scout Division.

SCORING

Use the camp accreditation score sheet to record the results of the accreditation visit, and forward it to the local council service center.

If any standard marked with an M (Mandatory) is not met, the camp or facility must be rated as conditionally accredited to operate.

Unless otherwise indicated, the word “adult” as used in the standards means the minimum legal age specified by the state in which the camp is located.

CLOSING A DAY CAMP OR PROGRAM FACILITY

When a violation presents an immediate hazard to safety and health, the visiting accreditation team has the authority and responsibility to order immediate shutdown of that portion of the camp that is in violation.

RATINGS AND RECOGNITIONS

(Count a nonapplicable item or an excused item as a “yes” when computing percentages.)

NATIONALLY ACCREDITED CAMP (Both must be marked “yes” to qualify.)

_____ Meets all standards marked with M (Mandatory). (The only exceptions are nonapplicable or legitimately excused items.)

_____ Meets at least 90 percent (56 or more) of all standards.

If all mandatory (M) standards are not met or the total score is not 56 or more, the camp must be rated as conditionally accredited.

Nationally accredited day camps may display the Nationally Accredited Camp flag, No. 11013 (available to councils from the Supply Division). The Day Camp Accreditation Certificate, No. 13-110, is available from Bin Resource Requests, Supply Division, National Distribution Center.

STANDARDS

Precamp Accreditation (Check if action needs to be taken.)	Operational Accreditation YES NO NA	Precamp Accreditation (Check if action needs to be taken.)	Operational Accreditation YES NO NA
ADMINISTRATION			
<input type="checkbox"/> M1. A precamp accreditation visit (minimum of 60 days prior to start of camp) was conducted on _____.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M10. A physician, licensed in the state in which the day camp is located, is in charge of medical care and health supervision of the camp. The name of the physician and the procedures for issuance and storage of drugs and medicines are in writing. These procedures comply with state regulations.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M2. If the day camp is not conducted on council property, a current written agreement for this year's camp has been secured from the landowner specifying the conditions of use.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M11. A health history (Class 1 section of form 34414B) of each camper, leader, and staff member is on file in camp during the camping period.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M3. The camp possesses all current local and state permits or licenses in valid condition, as required.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M12. A daily record of all first aid and medical treatments (written in ink) is kept in the First Aid Log, No. 33681A. Staff records are kept in a logbook separate from campers'. At the close of camp, first aid logs are returned to the local council service center and retained for 18 years.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> 5. Accident and sickness insurance is in effect for all campers.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M13. Appropriate emergency transportation is available at all times.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M6. A complete equipment inventory and an effective system of issuance and control exists for all departments.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M14. The camp provides adequate shelter and/or protection for inclement weather.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M7. A strict and orderly method exists for handling trading post stock, cash, and inventory, including support records.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M15. Campgrounds are clean, neat, and free of hazards. Program, washing, and toilet facilities are available to people with disabilities or the camp is implementing a plan to comply with the Americans with Disabilities Act.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M8. A camp operating budget with an effective cost-control and budget-control system is in effect and shared with key staff.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M16. Drinking water is from an approved municipal source or is tested regularly during the season for bacteriological quality, and meets state and local health department standards. (Check certification.)	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M9. A current (for this season) written agreement or exchange of letters with a nearby hospital is on hand, regarding procedures for admitting campers and procedures for handling financial arrangements for treating campers, if necessary.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

___ M17. Drinking water is provided at central locations via sanitary fountains or portable water coolers. Personal (individual use only) water bottles or disposable cups (no shared cups) may be used.

___ ___ ___

___ M18. Adequate male and female toilet facilities (1 per 30 campers or the state requirement) and hand-washing facilities are provided for visitors and campers.

___ ___ ___

___ M19. Written plans (updated annually and specific to the site) for handling emergencies such as floods, tornadoes, storms, lightning, fires, accidents, lost children, sickness, and fatalities are on hand and have been shared and practiced with staff and leaders.

___ ___ ___

___ M20. All motor vehicles used by the camp, including private cars, vans, and buses used for transportation of passengers, are kept in safe mechanical order and are operated in a safe and legal (registered and inspected) manner. Beds of trucks, trailers, and campers **are never** used to transport passengers at any time. A seat belt is available for each person in each motor vehicle (except commercial buses). All watercraft meet U.S. Coast Guard and local standards.

___ ___ ___

___ M21. Vehicles belonging to staff, leaders, and visitors are parked in a designated camp parking area. Roads in the camp are restricted to service vehicles.

___ ___ ___

___ M22. Current emergency telephone numbers for the fire department; police and rescue squad; hospital; camp physician; and Scout executive's home, mobile, and office are listed legibly and kept readily available. Alternative personnel

___ ___ ___

may be designated for the camp physician and the Scout executive with home, mobile, and office phone numbers listed. A telephone or other communication system is available at all times. An alternative communication system is desirable.

___ M23. The camp administration has written procedures in place to address possible intrusion of unauthorized personnel into camp. A review of the site's security concerns is conducted during staff training. Campers are coached about steps to take in such instances. Appropriate identification is given to campers, staff, and visitors.

___ ___ ___

___ M24. Written procedures are in place regarding (1) release of campers who are minors to a parent or to people other than the legal parent or guardian; and (2) daily verification of absentees or "no shows" with or by the camp leaders at check-in/registration time.

___ ___ ___

___ M25. Fire extinguishers of an approved type with unexpired inspection tags are properly located in buildings, in accordance with local recommendations.

___ ___ ___

___ M26. Garbage and trash disposal meets BSA's standards as defined in *Camp Health and Safety*, No. 19-308, or meets local or state regulations, whichever are more stringent.

___ ___ ___

___ M27. Kitchen, dining halls, commissary facilities, and feeding areas are sanitary, neat, and in compliance with local health regulations.

___ ___ ___

___ M28. Dishes and cutlery are washed, disinfected, and dried. All dishes and cutlery are stored in clean, flyproof enclosures.

___ M29. Meals, when furnished, are dietitian-approved, nutritionally balanced, and of sufficient quantity and quality to meet the needs of growing boys. ___ ___ ___

___ M30. A food cost-control record and complete inventory of commissary supplies is maintained during the camping period. ___ ___ ___

___ M31. Equipment is available in camp to maintain milk and other perishable foods under sanitary conditions at a temperature not over 4°C (40°F). A temperature chart, No. 34230A, is posted daily near each permanently installed refrigerator. ___ ___ ___

___ M32. Food handlers are neat, wear clean clothing, and comply with all state and local laws. ___ ___ ___

STAFF, TRAINING, AND ORIENTATION

___ M33. Every staff member, whether an employee or volunteer, has completed a position application and received a written position description and day camp volunteer agreement. ___ ___ ___

___ 34. The professional adviser or volunteer day camp administrator has successfully completed National Camping School training in Day Camp Administration. Check training card:

Name

Date NCS section completed

Training card expires

___ M35. The on-site day camp director is at least 21 years old (preferably 25 or older) and has successfully completed National Camping ___ ___ ___

School training in Day Camp Administration. The camp director serves as a camp director only, with no other duties. Check training card:

Name

Note: **This standard applies** if the local council is using its own swimming facilities and aquatics staff **OR** if the local council is renting a swimming facility but providing and supervising an aquatics staff. **This standard does not apply** if the local council uses a public swimming facility and its aquatics staff (such as a city-operated pool) or if the local council rents a swimming facility and uses the rental pool's aquatics staff. Communication and coordination must take place between the management team of the day camp and the management personnel of the swimming facility.

- ___ M38. The council has engaged a physician licensed to practice medicine as a health supervisor to approve and oversee the health care practices of this camp. Current written operating procedures are approved by the licensed physician. (Follow *Camp Health and Safety*; No. 19-308.)
- The on-site camp health officer is a responsible adult holding a current certification or license as required for the position.
- The on-site camp health officer must also have current certification in CPR by any recognized community agency.

CPR certifying agency

Expiration date

Check one:

- ___ Licensed physician
- ___ Licensed nurse practitioner

___ ___ ___

- ___ Nurse (RN, LPN, or LVN)
- ___ Licensed physician's assistant
- ___ Medical student (has completed second year or more at a qualified medical school in the U.S.A.)
- ___ Paramedic
- ___ Emergency medical technician (EMT)
- ___ First responder program (any training provided by a nationally recognized agency)
- ___ Military corpsman or medic
- ___ The minimum requirement is current certification in the American Red Cross Standard First Aid program, which includes CPR or the National Safety Council First Aid program and CPR Level 1.

There is an established location for contacting the on-site health officer.

One staff member for every 40 campers must be coached in first-aid practices for conditions most likely to occur in camp and be trained in CPR by any recognized community agency.

When the camp health officer is out of camp, another adult meeting the necessary qualification of the health officer is available.

- ___ 39. This day camp has a staff member responsible for proper business management practices and physical arrangements. ___ ___ ___
- ___ 40. If the camp has a "tot lot," adult supervision and guidance are provided, and minimum state requirements are met. Two-deep leadership is provided by a "tot lot" supervisor at least 21 years of age and an assistant "tot lot" supervisor at least 18 years of ___ ___ ___

age. Both are qualified to oversee dependent youth, and both have taken Youth Protection training (Camp Leadership: Youth Protection Begins With You, No. 34227); Seasonal Camp Staff Youth Protection and Personal Safety Training, No. 20-138 (available online at <http://info.netbsa.org>, under Program Group, Boy Scout Division, Training); and the National Camping School Camp Security and Stress Management sessions, which may be conducted locally. Provisions are made for preschool-age children of adult leaders to be covered by sickness/accident insurance.

___ M41. BB-gun shooting is conducted by a qualified on-site range officer, at least 18 years of age. Additional adult supervision and guidance are provided, and minimum state requirements are met. All BB-gun range officers have successfully completed the BB-gun Safety and Training program from a qualified instructor, who is a valid instructor as outlined in *Shooting Sports for Cub Scouting*, No. 13-550.

Check cards:

_____ Date trained

_____ Trained by

___ M42. Archery is conducted by a qualified on-site range officer at least 18 years of age. Additional adult supervision and guidance are provided, and minimum state requirements are met. All archery instructors have successfully completed Archery Supervisor Training from a qualified instructor, as outlined in *Shooting Sports for Cub Scouting*, No. 13-550.

Check cards:

_____ Date trained

_____ Trained by

___ M43. All key camp staff members are registered members of the Boy Scouts of America.*

___ M44. All day camp staff members must be at least 14 years of age. Den chiefs under 14 may only attend day camp if they are serving as a den chief for the same Cub Scout/Webelos den that they serve in the local pack. Youth under the age of 14 may volunteer to help at the camp (but are not considered staff members) if under the direct supervision of a parent, guardian, or Boy Scout troop leader.

___ M45. A minimum of one day of training annually has been given to staff. Staff training should follow agendas in Cub Scouting Day Camp manual, No. 13-33815, and/or Cub Scout Day Camp Staff Training Guide, No. 13-166.

_____ Staff Training Date

Required presentations include Camp Leadership: Youth Protection Begins With You, No. 34227; Seasonal Camp Staff Youth Protection and Personal Safety Training, No. 20-138 (available online at <http://info.netbsa.org>, under Program Group, Boy Scout Division, Training); and the National Camping School Camp Security and Stress Management sessions. A roster of participants and of those completing Youth Protection training is forwarded to the local council at the completion of training.

*Key staff members include day camp administrator, day camp director, program director, business and physical arrangements manager, health officer, craft director, and assistants, aquatics supervisor, range officer and assistant, den chief, tot lot supervisor and assistant, Webelos den leader and assistant, den leader and assistant, and program aide(s).

___ M46. An orientation (precamp or opening day) has been provided for adult leaders and parent volunteers who accompany Tiger Cubs, Cub Scouts, and Webelos Scout campers.

Orientation Date

___ M47. All BSA registered staff wear the official camp uniform. Theme-related costumes may be substituted when appropriate and approved.

PROGRAM

___ 48. The daily schedule for the camp, including inclement weather alternatives, is prominently posted.

___ 49. Progressive, age-appropriate program opportunities are provided for Tiger Cub dens, Cub Scout dens, and Webelos Scout dens.

___ 50. The day camp program has special theme features such as the Old West, Paul Bunyan, circus, etc., to provide a memorable experience for the boys.

___ 51. The day camp program incorporates the Cub Scouting Core Values.

___ 52. Parents or family are involved in at least one activity during each day camp session such as a barbecue, picnic, or campfire.

___ M53. Proper BSA standards and safety training are carried out in the aquatics program, including the use of boats. All aquatics facilities and equipment comply with all BSA, state, and U.S. Coast Guard regulations and standards.

___ M54. The buddy plan is used in all swimming and boating areas. In public pools under public supervision, day campers are still to

be checked in and out using the buddy system.

___ M55. Swimming is limited to waters or swimming pools that meet state health standards.

___ M56. The waterfront has one entrance and exit and at least one properly located lookout station staffed during the aquatics program.

___ 57. Leaders are coached in and given the opportunity to practice Safe Swim Defense at least once in camp, if aquatics is part of the program.

___ 58. Sports receive adequate emphasis in the program. Basic principle: Each boy, regardless of his ability, gets to learn the rules and play.

___ M59. The daily program allows ample time for rest and lunch breaks, especially a half-hour quiet program following lunch.

___ 60. The daily program begins and ends with a meaningful Cub Scout ceremony or patriotic ceremony.

___ M61. Archery is conducted safely, satisfying both the following:

___ a. Archery areas are properly designated and posted. (Refer to *Shooting Sports for Cub Scouting*, No. 13-550.)

___ b. Equipment is safely stored (locked up when not in use).

___ M62. Program tools are kept in good condition.

___ M63. The BB-gun program is conducted safely, satisfying both the following:

___ a. The BB-gun range is properly designated and posted. (See *Shooting Sports for Cub Scouting*, No. 13-550.)

___ b. Equipment is safely stored (locked up when not in use).
