Space Exploration
Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet (book). No one can add or subtract from the Boy Scout Requirements #33215. Merit Badge Workbooks and much more are below: Online Resources. Workbook developer: craig@craiglincoln.com. Requirements revised: 2005, Workbook updated: April 2008.

Scout's Name: ____________________________________________________________  Unit: _____________________________________________________________

Counselor’s Name: ___________________________________________  Counselor's Ph #: _____________________________

1. Tell the purpose of space exploration and include the following:

a. Historical reasons ______________________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

b. Immediate goals in terms of specific knowledge _________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

c. Benefits related to Earth resources, __________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

technology, and new products. _____________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

2. Design a collector’s card, with a picture on the front and information on the back, about your favorite space pioneer.
Share your card and discuss four other space pioneers with your counselor.

1

2

3

4

3. Build, launch, and recover a model rocket. Make a second launch to accomplish a specific objective. (Rocket must be built to meet the safety code of the National Association of Rocketry. See the “Model Rocketry” chapter.) Identify and explain the following rocket parts. *If local laws prohibit launching model rockets, do the following activity: Make a model of a NASA rocket. Explain the functions of the parts. Give the history of the rocket.

a. Body tube

b. Engine mount

c. Fins

d. Igniter

e. Launch lug

f. Nose cone

g. Payload

h. Recovery system

i. Rocket engine

4. Discuss and demonstrate each of the following:

a. The law of action-reaction
Space Exploration p. 3

b. How rocket engines work

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

Scout’s Name: ____________________

b. How rocket engines work

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

5. Do TWO of the following:

☐ a. Discuss with your counselor an unmanned space exploration mission and an early manned mission. Tell about each mission’s major discoveries, its importance, and what we learned from it about the planets, moons, or regions of space explored.

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

☐ b. Using magazine photographs, news clippings, and electronic articles (such as from the Internet), make a scrapbook about a current planetary mission.

___________________________________________________________________________

☐ c. Design an unmanned mission to another planet or moon that will return samples of its surface to Earth. Name the planet or moon your spacecraft will visit. Show how your design will cope with the conditions of the planet’s or moon’s environment.

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

___________________________________________________________________________
6. Describe the purpose, operation, and components of ONE of the following:

☐ a. Space shuttle  ☐ b. International Space Station

Purpose ____________________________________________________________

________________________________________________________________________

Operation ____________________________________________________________

________________________________________________________________________

Components ____________________________________________________________

________________________________________________________________________

________________________________________________________________________

7. Design an inhabited base located on the Moon or Mars. Make drawings or a model of your base. In your design, consider and plan for the following:

a. Source of energy ______________________________________________________

________________________________________________________________________

b. How it will be constructed ______________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

c. Life-support system ____________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

d. Purpose and function __________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

8. Discuss with your counselor two possible careers in space exploration that interest you.

Career 1 ________________________________________________________________

Find out the qualifications, education, and preparation required __________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

and discuss the major responsibilities of those positions. ____________________________

________________________________________________________________________

________________________________________________________________________
